May IS...

STYLE + VALUE

National **STRAWBERRY** Month, celebrated with *festivals* from California to Virginia, Texas to Tennessee. The first fruit to ripen in spring is *synonymous* with the season and the **MUSE** of many, including English physician William Butler, who said, "Doubtless God could have made a better berry, but doubtless God never did."

Buon Appetito! {it's worth it}

Can you get too much of a good thing? Not where Tuscan cooking is concerned. That's why the tour operator **Tuscan Way** has established another location for its cooking vacations: an 18th-century villa in **Roccastrada, Italy**, 35 miles south of Siena. Choose a \$2,000, four-day/three-night excursion or a \$3,250, weeklong trip including five cooking courses, food festivals, excursions to neighboring medieval towns, hiking, biking or simply basking in the Tuscan sun with a bello brunello. Info: 800-766-2390, 305-598-8368 or www.tuscanway.com.
